

FOOD SAFETY

The needs of providing quality food and beverages product is always been a focus for every farmers, manufacturers, and supplier all around the world. However, the consumer side (both retailer and end-consumer), not only the quality matter nowadays but also the food safety itself. This practice of food safety needs to be assured across the entire food supply chain, which start from the producer until the final retailer.

We can help preparing your business to comply with this comprehensive standard in order to expand your business nationally and internationally

WHAT CAN WE ASSIST:

In Peterson Projects & Solutions, we comply internationally recognized standards in order to deliver our food safety consultancy services. Our standards compliance are including *ISO 22000*, *British Consortium Council Standards (BRC Standards)*, *Food Safety System Certification 22000 (FSSC 22000)*, *PrimusGFS* and *Good Manufacturing Practices (GMP)* which you can choose to fulfill your business needs. In addition to your manufacturing needs, we also provide feed safety consultation services to ensure your feed production is also comply with GMP + international standards.

We deliver the consultancy regarding the food safety in many types of services, including:
